CERAMICS

An accurate selection of fine marbles that epicates to meet the aesthetic and practical needs of every interior design project: the Tiles of classical tradition have always been the protagonists of architecture in warm and cool tones, Italian marbles recognized all over the world for their purity, original colors reinterpreted and proposed in a new perspective.

Carving-effect Stoneware designed to be used on any surface: floors, walls, and architectural volumes. The 60x120cm formats with a 09 mm thickness are perfect for seamlessly cladding walls, reducing the interruptions and horizontal joints, ensuring an aesthetic continuity between the floor and the wall.

Decoration That Enrich The Collection

An accurate selection of Tiles that Imlis replicates to meet the aesthetic and practical needs of every interior design project the Tiles of classical tradition have always been the protagonists of architecture in warm and cool tones, We recognized all over the world for their purity, original colors reinterpreted and proposed in a new perspective.

The true distinctive strength of the “Soul” design lies in the fact that we have enhanced rather than discarded, selecting the most natural part of the oak with all its wonderful imperfections and letting it fully express itself through the three variants “natural”, “rustic” and “reclaimed” which most pertain to this wonderful timber, as old as humankind and as deep as the emotions it always generates in those exposed to it.
